SAVAGE, Wilson and other repudiationists, will vote against the 50-4 proposition.

DORSEY B. THOMAS, who has always been against the payment of the State debt, is canvassing against the 50-4 proposition.

No one who is willing to settle with such of our creditors as have proposed to take 50 and 4, should fail to go to the polls next Thursday.

WILLIAM RULE, editor of the CHRONICLE, has accepted an invitation from the people of Monroe county to speak at Madisonville, next Monday, August 4th, on the subject of the proposed compromise of the State debt. Hon. Jno. M. Fleming is also invited and is expected to be present.

MR. WELSH has resigned his position as Minister to England. This, it appears, was expected in official circles, as it has been known for some time that he desired to return to this country. His health has not been good for months past, and he has been much afflicted by deaths in his family. He is a Pennsylvanian, and that State will claim the privilege of furnishing his successor.

That sterling Republican paper, the Maryville Index, conspicuous for the honesty of its editors, and for their devotion to what they regard as right, says:

"In voting for the fifty-and-four proposition we do not say to the bondholders, 'Take this or nothing,' but we merely give them a chance to save themselves from the thieves who would repudiate the whole, and thus plunge the State again into turmoil and confusion, disgrace, and expensive litigation. Unless the question is settled, our industries will be paralyzed, immigration and money will be kept away. Savage and his followers will vote 'Re-jected.' Let us vote 'Accepted.'"

The Roane County Corn Crop.
While in Roane county on Tuesday, we noticed some as fine corn as we have ever seen, and we learn that notwithstanding the drought there will be almost an average crop in that county. Roane is favored with considerable river-bottom land and the corn along the river is certainly good.

Fight Between Well Known Nashvillians.
The Nashville American, of Tuesday, contains the following:

"A street encounter occurred between Col. W. N. Cowden, Supreme Court Clerk, and Gen. W. H. Jackson, yesterday afternoon, on North Cherry street, opposite the Cartwright block. White Gen. Jackson was engaged in a conversation with Col. John H. Savage, Col. Cowden approached and told Gen. Jackson that he desired to see him. Gen. Jackson stepped aside, and both entering the doorway just in the rear of McCormack's tea store. Col. Cowden asked Gen. Jackson if he made use of certain remarks in his speech before the recent tax payers' meeting, to which Gen. Jackson responded that he was responsible for what had appeared in the printed report of the speech. Col. Cowden then said, with a very opprobrious epithet, that any man who would make use of such language told a lie. At this Gen. Jackson struck Col. Cowden on the forehead with his fist, inflicting a severe bruise, when Col. Cowden hit him on the head with a blood flowed from a gash from which the blood flowed freely. Gen. Jackson then started at Col. Cowden, and struck him with an umbrella. At this juncture they were parted. Both gave bond for their appearance before the Recorder this morning. Gen. Jackson went to Judge Duling and agreed to submit his case by attorney, as arrangements previously made compel him to leave for Colorado this morning."

Improvement Notes.

Mr. F. McNulty is digging out for the huge basement on record for his new hotel, the "Hattie House," on the corner of Gay and Clinch streets. It is to be about eighteen feet deep at the front, and extend under the entire building. It will eclipse anything in this part of the country, is to be amply lighted and ventilated, and will furnish storage room for an immense quantity of stuff. The work of excavating the dirt has been in progress for several weeks, but they struck a huge ledge of rock which impeded the progress considerably.

Mr. McNulty made a change in contractors yesterday and is giving the work his own personal supervision, so as to rush it through as soon as possible, and get to work on the brick-laying. He is certainly moving things along. Last night he procured a locomotive headlight to give light and employed a night force who worked through the night. This will be kept up, a day force and night force, keeping the work moving right along steadily till it is finished. The dirt taken out is being dumped near Scott's mill. It makes an immense pile, and if it had been sufficiently convenient, it would have pretty well filled up the old Flag Pond.

Mr. S. H. Johnson, Money Order Clerk at the postoffice, is just about completing a handsome and convenient two story frame dwelling out in Ramsey's Addition, on Fort Saunders hill, beyond Mr. Simmond's residence. He has a beautiful location, and when his improvements are completed, it will be quite an addition to that portion of the city, which is so rapidly building up.

Mr. M. L. Ross, of the firm of M. L. Ross & Co., has commenced the erection of a large, commodious and convenient stable, barn, carriage-house, etc., on his premises in White's Addition, West Knoxville. It is to be a two-story frame building, put up after the latest and most improved style, and will be one of the roomiest and most convenient houses of the kind in the place.

A Georgia Blood Hound Hunt.
The Atlanta Constitution gives a graphic description of the capture, Monday evening, of a negro named Asa Morgan, who confesses to being one of the gang which murdered and butchered the old man Martin DeGor and his aged wife, near that city, Friday night of last week. They, it will be remembered, were the parents-in-law of Mr. Chas. Leonhardt, of Anderson county. The guilty scoundrel put the officers of the law on his trial by some suspicious talk and conduct in the presence of an old colored man near Atlanta. The officers put out with a blood-hound, old "Lee," spoken of as the best one in the South, and after an exciting trail of several miles the murderer was treed in a straw stack. A lively tussle was had between him and the hound, and the negro was badly chewed up, besides being belted over the head with a spade by the officer.

He first denied the deed, but afterwards confessed to having belted the light while a white man committed the murder, and another negro stood guard. Their object was robbery, and they got a pile of money, he says, but the others failed to divide with him. He was placed in jail, and search was being made for his accomplices.

One Week in Wall Street.
October 7th, 1878, Western Union Telegraph sold at the New York Exchange for 93.15 per share; October 14th, 1878, it sold at 86.34, a fluctuation of 9.38 per cent. in seven days; 12,500 shares sold on a margin of one per cent. required an actual capital of \$12,500. The same stock delivered at 86.34 gave a profit of 9.38 per cent on the stock of \$937.50 per 100 shares. On the whole 12,500 the actual profit was \$117,187.50 or 9.38 times the capital used in one week. This is a single case taken from the official record of the Stock Exchange, and shows how money is made so rapidly in stocks. Few people, however, have the necessary cash to put up in order to realize such immense profits as these, but capital in any amount from \$10 to \$50,000 can be used with equal success by the new combination system of operating in stocks which Messrs. Lawrence & Co., Bankers, New York, have established. By this method of pooling thousands of orders in various sums and operating them as one immense capital, shareholders realize large profits which are divided pro rata monthly. New circulars containing two unerring rules for success, and full information, so that any one can operate profitably, stocks and bonds wanted. Government bonds supplied. Apply to Lawrence & Co., Bankers, 57 Exchange Place, New York City.

Drunken Stuff.
How many children and women are slowly and surely dying, or rather being killed, by excessive doctored, or the daily use of some drug or drunken stuff called medicine, that no one knows what it is made of, who can easily be cured and saved by Hop Bitters, made by Hops, Buchu, Mandrake, Dandelion, &c., which is so pure, simple and harmless that the most frail woman, weakest invalid or smallest child can trust in them. Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chills, Biliousness, Headache, Stomach Ailments, and all the affections which arise from malarious, marsh, or miasmatic poisons.

This is a compound remedy, prepared with scientific skill from vegetable ingredients, which rarely fails to cure the severest cases of Chills and Fever and the concomitant disorders. Such a remedy the necessities of the people in malarious districts demand. Its great superiority over any other medicine, yet discovered for the cure of Intermittents, is that it contains no quinine or mineral, and those who take it are free from danger of quinine or any injurious effects, and are as healthy after using it as before. It has been extensively employed during the last thirty years in the treatment of these distressing disorders, and so unvarying has been its success that it has gained the reputation of being infallible. It can, therefore, be safely recommended as a sure remedy and specific for the Fever and Ague of the West, and the Chills and Fever of the South. It counteracts the miasmatic poison in the blood, and frees the system from its influence, so that fever and ague, shakes or chills, once broken up by it, do not return until the system is again contracted.

The great variety of disorders which arise from the irritation of this poison, such as Neuralgia, Rheumatism, Gout, Headache, Blindness, Stomach Ailments, Cough, Asthma, Catarrh, Spasmodic Affections, Hysteria, Palsy in the Bowels, Colic, Paralysis, and derangement of the Stomach, all of which become intermittent or periodical, have no speedier remedy than AYER'S AGUE CURE, which cures them all alike, and protects the system from future attacks.

As a preventive, it is of immense service in those communities where Fever and Ague prevails, as it stays the development of the disease if taken on the first approach of the premonitory symptoms. Travellers and temporary residents are thus enabled to defy these disorders, and few will ever suffer if they avail themselves of the protection this remedy affords.

For Liver Complaints, arising from torpidity, it is an excellent remedy; it stimulates the organ into healthy activity, and produces many remarkable cures where other medicines fail.
